2. **Maintain Records of E-Waste:** The facility must maintain records of e-waste collected, dismantled, recycled, and sent to registered recyclers on the portal within the next 60 days.

3. **Update Records and Share Information:** The facility must update its records and share information on the online portal for collation of data on receipt, storage, recycling, and dispatch of waste during the preceding half year by 15th October and 15th April each year.

4. **Conduct Internal Audit:** The facility must conduct an internal audit to ensure compliance with all regulatory requirements and report back to the authorities within 90 days.

Recommendations:

- The facility should consider implementing a waste management plan to ensure compliance with all regulatory requirements.
- The facility should provide training to its staff on the importance of waste management and the regulatory requirements.
- The facility should consider engaging a third-party auditor to conduct an external audit to ensure compliance with all regulatory requirements.

Conclusion: The facility has detected non-compliance with several regulatory requirements. The Mandatory Action Plan outlined above will help the facility to address these non-compliances and ensure compliance with all regulatory requirements.

Non-Compliance: The facility has detected the following non-compliance:

- Waste Stream 2 and 3 are not being sent to registered recyclers as per Rule 3(3).
- The facility does not have records of e-waste collected, dismantled, recycled, and sent to registered recyclers on the portal as per Rule 5.

Mandatory Action Plan:

1. **Send Non-Recyclable Waste to Registered Recyclers:** The facility must ensure that fractions or material not recycled in its facility are sent to the respective registered recyclers within the next 30 days.
2. **Maintain Records of E-Waste:** The facility must maintain records of e-waste collected, dismantled, recycled, and sent to registered recyclers on the portal within the next 60 days.
3. **Update Records and Share Information:** The facility must update its records and share information on the online portal for collation of data on receipt, storage, recycling, and dispatch of waste during the preceding half year by 15th October and 15th April each year.
4. **Conduct Internal Audit:** The facility must conduct an internal audit to ensure compliance with all regulatory requirements and report back to the authorities within 90 days.

Recommendations:

- The facility should consider implementing a waste management plan to ensure compliance with all regulatory requirements.
- The facility should provide training to its staff on the importance of waste management and the regulatory requirements.

Facility Context: The facility in question is an intermediate waste storage facility, responsible for the storage, dispatch, and recycling of waste. The facility has detected the following waste items: ids [0.41, 0.42, 0.55, 0.54].

Waste Stream Classification: Based on the detected waste items, the following waste streams can be identified:

- Waste Stream 1: Electronic Waste (ids [0.41, 0.42])
- Waste Stream 2: Non-Recyclable Waste (id 0.55)
- Waste Stream 3: Non-Recyclable Waste (id 0.54)

Regulatory Compliance Check:

1. **Storage and Dispatch of Waste:** The facility must follow standard operating procedures and measures laid down by the Central Board or State Boards or Pollution Control Committees and implementing agencies (Rule 3(c)).
2. **Sharing Information:** The facility must share information on the online portal for collation of data on receipt, storage, recycling, and dispatch of waste during the preceding half year by 15th October and 15th April each year (Rule 3(d)).
3. **Recycling and Disposal:** The facility must ensure that fractions or material not recycled in its facility are sent to the respective registered recyclers (Rule 3(3)).
4. **E-Waste Management:** The facility must maintain records of e-waste collected, dismantled, recycled, and sent to registered recyclers on the portal and make available all records for verification or audit as and when required (Rule 5).
